

Tote Solutions Ltd.

Liners

PROTECT YOUR LIQUID PRODUCTS THROUGHOUT DISTRIBUTION.

Store and transport your liquid products in abuse **resistant aseptic** and **non-aseptic** liners.

Safeguard against moisture, oxygen and environmental contamination with liners that deliver robust barriers and sturdy 2-4 ply construction.

When your product is to be used, it can be decanted without allowing air into the container; the flexible liner collapses ensuring no oxidation takes place during the emptying process. This is particularly important when dealing with products that are readily affected by contact with air.

The flexible liner is easy to drain completely, thus avoiding product residue. After emptying the liner is replaced and can be sent for material recycling, reducing environmental impact.

Designed For Your Operation

Tote Solutions liquid product liners are available in a wide array of film structures and designs to fit your [product-specific packaging requirements](#).

Custom designed bags for:

- Critical product characteristics
- Specific storage requirements
- Customized film formulations

Available film structures:

- Metalized polyester (MetPet)
- Polyethylene (PE)
- Ethylene vinyl alcohol (EVOH)
- Linear low-density polyethylene (LLDPE)
- Nylon

Versatility For A Variety Of Applications

Industrial Food

- Condiments
- Dressings & Sauces
- Edible Oils
- Eggs
- Preserves
- Soy

Dairy Products

- AMF
- Blends
- Cream
- Milk

Non-Food

- Adhesives
- Coatings
- Health & Beauty
- Lubricants

Fruits & Vegetables

- Apple
- Beans
- Leafy Greens
- Pear
- Tomato

Versatility For A Variety Of Applications

Berry & Stone Fruit

- Apricot
- Blueberry
- Peach
- Plum
- Strawberry

Citrus Fruit

- Citrus Pulp
- Grapefruit
- Lemon
- Orange Juice
- Pineapple

Customer Benefits

- Protect against moisture, oxygen and environmental contamination with robust barriers
- Cube-shape design ensures proper fill and fit in container to provide maximum pack density and reduce risk of material getting caught in liner folds
- Shield high-value products from UV light to prevent material color change
- Increase productivity and accuracy with converting and auto folding
- Hands-free filling reduces labor
- Wide array of fitment options ensures an efficient filling and dispensing process for your product
- Reduce cleaning costs of intermediate bulk container

Certifications

- Shield high-value products from UV light to prevent material color change
- Food Safety Certified FSSC 22000
- Interstate Milk Shippers Certified - Single Service Packaging for Milk and Milk Products
- Kosher Certified
- Halal Certified
- FDA Approved
- CFIA Approved
- HACCP Approved
